

Presenting...Clean Cheeks

You were enjoying your bathroom time from the comfort of your own home, with a clean toilet bowl, a clean sink, clean floor, and perhaps your own personal bidet and shower. Life was great.

Then it came back: physical lessons.

Suddenly, you find yourself in NUS every other day. After drinking too much coffee and eating a bit too much mala, you get a stomach ache while in school. It's time for you to relieve yourself. You hold it in as you walk, in desperate search for the nearest toilet to you. You pass by rows of classrooms, walk up and down the stairs, before you finally arrive at a toilet. You enter the toilet excitedly, hoping for a pleasant sight.

To your absolute horror, the floor is wet, the toilet bowls are stained and unflushed, and you stand there in despair, wishing you had known to avoid this toilet and that you knew where the acceptable toilets around you were.

Indeed, not all toilets are made equal.

This is where Clean Cheeks comes in. With Clean Cheeks, you can easily find the nearest toilets on campus. Not only that, you can also see at a glance what utilities the toilets have to offer, be it bidets or showers or water coolers. Most importantly, you will know how clean the toilets are instantly from their cleanliness ratings.

Got a favourite toilet you frequent? Add it to your favourites and we will always display that toilet at the very top of the list! Got a toilet that you want to avoid at all costs? Blacklist it and we will chuck it to the very bottom of the list, somewhere where you won't see it that often 🙈

No more running to and fro in search of a clean toilet; simply open up the Clean Cheeks app and we will bring the clean toilets to you. You will no longer dread having to use the toilets on campus!

Find us at <https://clean-cheeks.vercel.app/> today!
